  - Please advise any concerns
- Attendees list
  - In person - record name on list circulating
  - Online - please use chat function to advise your name if not stated in participants list
  - Apologies - please advise Monica or Cathy

# Agenda

- Welcome
- Administration
- CMAG 2022 contributions
- Symptom concepts
- At risk content
- Document reviews
  - Delivered/not delivered content
  - Terms of reference
  - 2023 work plan
  - CRS guideline updates
- Release notes discussion
- Any other business

# Administration

- Minutes
  - Last meeting: No feedback - approved
  - This meeting: CMAG reps will receive an action item to review when minutes created
- Conflicts of interest
  - This meeting - Any to declare?
  - Update to DOI CMAG confluence page required
    - [Due 31 October 2022](#)
- [Action Items](#)
  - Nil at present
  - Several from this meeting - see [action items list](#)

# CMAG Contributions

In 2022 the CMAG provided input on

- Primary and metastatic malignancy disorders
- Inactivation of procedures stating intent
- Laboratory findings - Use of reference range
- Changes to heart failure content

# Symptom Content - Potential Inactivation

- [<< Finding reported by subject or history provider \(finding\)](#)
- Issues include:
  - Broadness e.g. Cardiovascular symptoms (finding)
  - Vagueness: e.g. Weight symptom (finding)
  - Subtype of findings without reporter information e.g. Diarrhea symptom (finding) <! Diarrhea (finding)
  - Could only be reported e.g. Earache symptom (finding)
- Reporter better captured by information model
  - Congruent with HL7 FHIR suggestions
- Complaining of content [previously inactivated](#)
- Due date- to be determined at meeting

[Content usage in your country?](#)

# At Risk

- EAG decision April 2022 move from Finding to Situation hierarchy
- Nursing CRG objection to be considered
- Documents available on [CMAG agenda](#)

# Inactivation: Delivered/not delivered content

- Intention to inactivate concepts that include within the FSN the delivery status of the mother
- Examples:
  - 198905007 |Placenta previa with hemorrhage - delivered (disorder)|
  - 198906008 |Placenta previa with hemorrhage - not delivered (disorder)|
- [Briefing note link](#)
- Feedback or concerns to [info@snomed.org](mailto:info@snomed.org) prior to **Friday 23rd October 2022**

# CMAG Documentation

Documents for review and comment

- [Terms of reference v2.6](#)
  - [TOR review comments](#)
  - **Due: 31st October 2022**
  
- [2023 Work plan draft](#)
  - Add comments to draft work plan page
  - **Due: 31st October 2022**

# CRS Guidance - Promotions update

- Change relates to a request to promote a concept in another extension
  - Extension A wants to promote concept in extension B
  - Extension A contacts extension B requesting promotion using new template
  - Extension B requests promotion
- Promotion requests
  - Managed service customer - via authoring platform
  - Other - via CRS
- Concept **must** be published

<https://www.snomed.org/snomed-ct/Use-SNOMED-CT/change-or-add>

# Release Notes Discussion

- Intent - summary of monthly changes
- Seeking CMAG input and feedback
  - Usefulness
  - Amount of information
  - Missing content
  - Other.....

[Release Notes Example](#)

# Any Other Business

- Any additional topics or issues?
- Next CMAG meeting - when required
- [JOINT Advisory Group](#) - 28th September

# Thank You
