

Briefing Note for the Member Forum and Content Managers Advisory Group December 2022

Planning for ICD-O-3.2 map

Purpose

To ask the Member Forum and Content Managers Advisory Group for details of their usage of the ICD-O-3.1 map (WHO, International classification of diseases for oncology – 3rd edition, 1st revision).

Background

The Content and Mapping Team are planning for the deprecation of the ICD-O-3.1 map and replacement with a map to the latest edition ICD-O-3.2. This will also involve some updates to SNOMED CT content. To assist with planning and resource allocation we would like to ask:

1. Do you use the SNOMED CT to ICD-O-3.1 morphology map or are you aware of anyone who does?
2. Do you use the SNOMED CT to ICD-O-3.1 topography map or are you aware of anyone who does?
