

# The University of Eastern Finland to provide SNOMED CT education through SNOMED International delivery agreement

SNOMED International is pleased to announce a recent partnership with the University of Eastern Finland to deliver SNOMED CT education as an approved delivery agent in Finland.

The University of Eastern Finland and SNOMED International have struck an agreement to deliver mutually agreed upon SNOMED CT educational content including the organization's professionally curated Foundation course, with the potential to also offer the Implementation Course and suite of Authoring courses.

As a result of this agreement, the University of Eastern Finland will serve as an extension of the SNOMED International Education Program within parts of Finland and be empowered to issue course completion certificates and certifications as applicable.
