

The final deadline to submit SNOMED CT Expo 2023 abstracts is rapidly approaching!

On May 2, 2023, the window to submit an abstract for this year's Expo in Atlanta closes

AVOID DISAPPOINTMENT!

Reach out to prospective colleagues and contacts, share information about the SNOMED CT Expo Call for Abstracts, and encourage them to submit an oral presentation or e-poster abstract! The more abstracts we receive, the better the quality of the conference overall.

Important details to share:

This year's event will be held in Atlanta, GA, also known as "the city in a forest," from October 26-27, 2023.

Submissions must focus on using SNOMED CT in a product, service or research context across one of the four program streams:

- Enhancing Clinical Practice and Outcomes
- Terminology Leading Practices
- Demonstrating Implementation Excellence
- Advances in Research and Innovation

Why submit?

It's a great professional opportunity and it helps build the global SNOMED CT knowledge base. It's also just a fun, rewarding and educational event that many in the SNOMED International community enjoy attending every year!

Check out snomedexpo.org for guidelines and the link to submit.
