CALL FOR ANNOTATORS SNOMED International Entity Linking Challenge Project

SNOMED International is recruiting up to 5 annotators for an exciting project being run by SNOMED International to create an Entity Linking Challenge, encoding unstructured patient data with SNOMED CT using AI techniques.

The project is set to commence in July 2023 and is estimated that the work will equal a minimum of 20 hours per week over a 2 month period. Annotators will be compensated $60USD per hour.

Requirements for annotators:

- Able to annotate clinical notes over a 2 month period or approximately
- Attend a training workshop and participate in weekly team quality review meetings
- Fluent in English
- Able to work remotely
- Complete the MIT PhysioNet clinical data training (around 2 hours) before the project commences
- Previous exposure to coding using SNOMED CT
- Possess one of the following backgrounds:

1. Clinical practice in a primary care setting. This could include medical students who have completed several placements or rotations in the appropriate institutions.
2. Clinical coders with at least one year's experience.
3. People with a year's past experience annotating medical notes to SNOMED CT for the purpose of clinical product development or natural language processing.

Please send your resume and letter of interest to SNOMED International (annotation@snomed.org). **Deadline to submit is Friday, June 9, 2023.**
