## Join an Advisory Group

SNOMED International has seven Advisory Groups (AGs) that conduct specific activities that contribute to the fulfillment of the Management Team's responsibilities and the organization's mandate. The Advisory Groups are chaired by Management Team members and are agile in nature, given the changing needs and direction of the organization.

At the beginning of each year, each Advisory Group develops a group work plan outline, determines whether Task and Finish sub-groups are required, outlines any resource requirements, and lays out a set of criteria in order to measure the progress of the applicable group work plan.

SNOMED International will open recruitment for new AG members in April 2017.
